2 Installation for SS600nx

To properly install unplug the base and turn base over(requires 2 person lift).

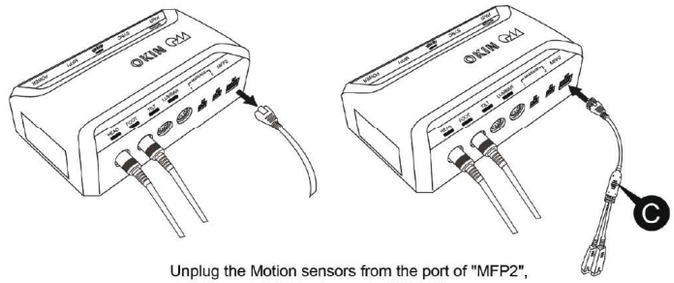

1

Install SleepSense controller onto wood deck of adjustable base with wood screws (F) as shown

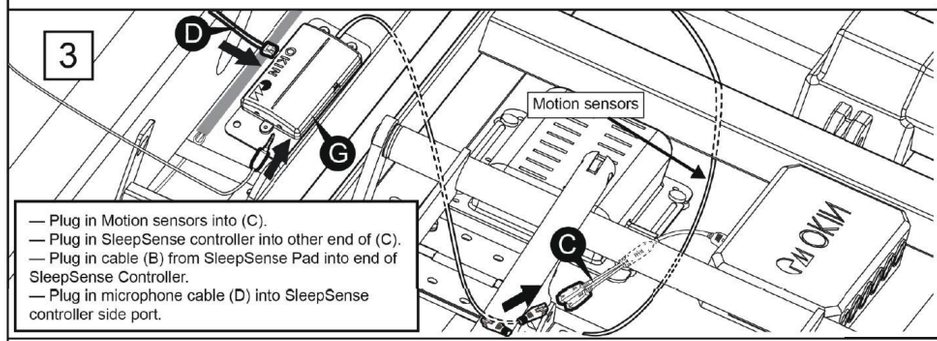

The back of the bed frame has multiple wiring duct. Please stuff the excess wire into the nearby wiring harness.

2

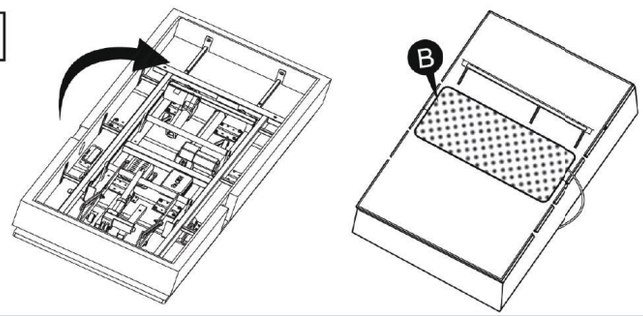

Unplug the Motion sensors from the port of "MFP2", plug the part (C) into the port of "MFP2".

3

— Plug in Motion sensors into (C).
— Plug in SleepSense controller into other end of (C).
— Plug in cable (B) from SleepSense Pad into end of SleepSense Controller.
— Plug in microphone cable (D) into SleepSense controller side port.

4

Carefully turn base over (requires two person lift) and place SleepSense Mat on top of adjustable bed as shown. Replace mattress and plug in base into outlet.
